Supporting your customers with product information and advice is crucial nowadays!
We are all working in a very dynamic market and it is getting more and more difficult to detemine the exact specifications of the product you purchased.
That's why we are including symbols in this catalog that tell you about materials, functionality and other important information about the product. These should enable you to compare products and choose whatever is most suitable for your company. And if there are still open questions about a certain product, your account manager is obviously there to help you out!

Following is the explanantion of each symbol in this catalog:

A chemical secreted by humans that influences the behavior or development of others, often functioning as an attractant of the opposite sex. Evolved Pheromone Bracelets™ are made with 100% pheromone infused silicone. Placing these bracelets over your wrists creates a natural reaction from your sweat glands. This causes the pheromones to be released, attracting the opposite sex. Once opened, these bands last approximately 45 days.

4 560220 550120

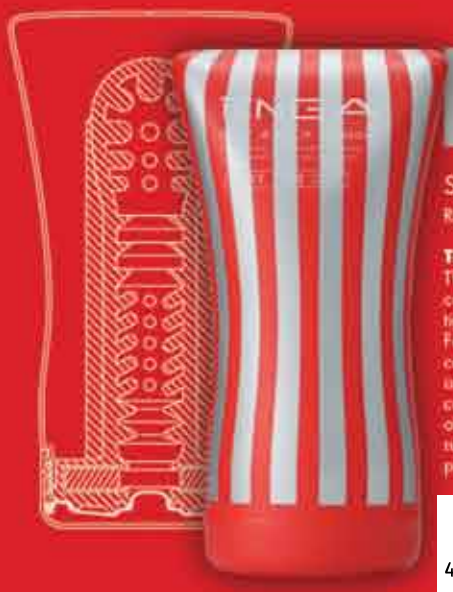

SOFT TUBE CUP U.S.

ref: TOC-002US

The arousing pressure.
Control the adjustment by how tightly or how lightly you grip the cup. Besides, the new soft quilted cup that adapts to the pressure you apply with your hand, the "US brushing zone" allows a precise stimuli transmission.

4 560220 550137

SOFT TUBE CUP

Ref: TOC-102

Tighten yours to suit.
This cup gives you complete control over the tightening sensation. Feeling that suits you, controlled by how tightly or how lightly you grip the cup. Enjoy a wide variety of sensual sensations from rubbing, stroking, pressing...

4 560220 550182

ROLLING HEAD CUP

Ref: TOC-103

3D Onanism

4 560220 550199

DOUBLE HOLE CUP

Ref: TOC-104

From the front and from the back....
Enjoy two different penetrations. The "Bitter Side" firmly tightens while the "Sweet Side" gently clings to your penis. Normal use is one side at a time. But, using both simultaneously transports you to the virtual world of a threesome...

4 560220 550205

AIR CUSHION CUP

Ref: TOC-105

The ultimate clinging sensation
World's first onanism cup to adopt an air-cushion mechanism without relying on the elasticity of its materials. This sweet and clinging sensation has been achieved by allowing free changing of the air pressure in the 24 air-cushion chambers.
